Condition Report Gratings Explained.

- **Grade A1** awnings typically less than 3 years old* (with exception of premium brands) which are in pristine condition with full standard accessories pack, reproofed and ready for immediate use. These awnings may have slight or barely noticeable marks once erected, please refer to the individual awning condition report.
- **Grade A2, A3, A4** Awnings over 3 years old, professionally inspected, where there are minor to moderate signs of use. The better condition the awning is in, the smaller the number. These awnings will be Fully functional, equipped and ready for immediate use. These awnings may have signs of dust or dirt, moderate signs of use or cosmetic imperfections. The awning would be fully functional and are typically sold with 30 - 90days StandArt Product Guarantee.
- **Grade B1/2/3/4** are awnings typically sold to trade clients or designated for export. These are generally not available to the end consumer, over 10 years old or with various problems or repairs required.

** Please note, the above grading is only for representative purposes.

- The individual listing will always have the full details of the particular awning and accessories included in the package.
